

MA-university

Dear participant,

Thank you for registering for the grandMA3 Basic training course at Rolight. Registration is considered final upon receiving the order confirmation. The exact dates of this course are listed on this order confirmation.

In case you are not able to attend on the scheduled dates, please inform us in advance.

Planning

The full training spans two days. Attending only one of the days is not possible. On training days you are welcome to join us for a cup of coffee at 9:30 AM. The training will start at 10:00am and is expected to last until approximately 5:00 pm.

Accommodation & lunch

Rolight provides lunch on the course days. Please let us know in advance of any dietary preferences or food allergies that we should accommodate. Dinner is not included. If you are considering an overnight stay in Enschede, we can recommend the van der Valk hotel.

Location & transport

The training will take place at Rolight's studio, located at Josink Kolkweg 10 Enschede. If you plan to use public transport, we recommend taking either bus 4 or bus 7 from Enschede Central Station. Bus 4 will drop you off at Henriëtte Ronnerlaan ([bus 4](#)), while bus 7 will drop you off at Josink Esweg ([bus 7](#)). Both stops are a 5-minute walk away.

More information on this and other follow-up training courses can be found on [Rolight's](#) website. Please don't hesitate to reach out to us if there are any questions prior to the training.

See you at Rolight.

MA-university

Looking to expand your knowledge of MA lighting control consoles? We are more than happy to help you with that! We have been providing successful training courses in our studio in Enschede for years. Anyone who works with or wishes to learn how to use a grandMA lighting console is welcome to attend our training courses.

Basic training

The grandMA3 Basic training is for anyone who wish to operate a grandMA3 lighting control desk, but lack prior programming experience with these consoles. During the training you will learn the basic functionalities of the grandMA3. All functions needed to programme a show are covered.

Knowledge

The training course is an entry-level beginner's course. Prior knowledge is not required, but having basic knowledge of lighting control is beneficial. To prepare for the training, we advise you to take a look at the MA tips available on the MA Lighting website, or follow the online e-learning courses. You can register for e-learning via [this link](#).

Certificate

Upon successfully completing an MA Lighting University training course, an official certificate will be issued.

Practical information

The training takes two days. Attending only one of the days is not possible. A maximum of 12 places are available for this course. Rolight will provide enough workstations including 3D visualisation. The course will be given in English.

Topics

The training will include the following topics::

- Software Philosophy
- Hardware and Connections
- Setup
- Patch
- Views
- Integrated 3D visualization
- Groups
- Selecting and operating fixtures
- Programmer concept
- Preset concept
- Sequences and tracking
- Saving and editing moods
- Basics Phaser
